

British Corrosion Journal

Author index 1991

- M. I. Abbas
Effects of temperature on the dezincification and electrochemical behaviour of 70-30 brass in sulphuric acid 273
- A. M. Abdullah *see* V. K. Gouda 109
- M. M. Al-Abdallah
Chemical and electrochemical behaviour of titanium in methanol-water-HCl mixtures 133
- J. N. Al-Hajji and A. M. Nawwar
Corrosion behaviour of molybdenum alloyed low residual carbon steels in HCl solutions 127
- A. H. Al-Hashem *see* V. K. Gouda 109
- C. Allen
Corrosion of galvanised steel in synthetic mine waters 93
- A. Amirudin and D. Thierry
Comparative evaluation of alkyd, bituminous, and epoxy paints on steel in chloride media by impedance spectroscopy 195
- C. B. Ashmore, L. Tomlinson, P. J. B. Silver, and A. P. Mead
Corrosion of standard and modified 9Cr-1Mo ferritic steels in high temperature water containing acid sulphate-chloride 135
- A. Ball *see* I. M. Wolff 202
- A.-M. Beccaria and J. Crousier
Influence of iron addition on corrosion layer built up on 70Cu-30Ni alloy in sea water 215
- A. J. Betts *see* L. H. Boulton 287
- P. L. Bonora *see* L. Fedrizzi 46
- L. H. Boulton and A. J. Betts
Corrosion performance of titanium and titanium stabilised stainless steels 287
- C. B. Breslin *see* W. M. Carroll 255
- W. M. Carroll and C. B. Breslin
Stability of passive films formed on aluminium in aqueous halide solutions 255
- B. Chexal *see* B. Poulson 183
- S. L. Coleman, B. McEnaney, and V. D. Scott
A double cycle polarisation technique for corrosion studies on metal matrix composites 186

Pitting resistance of weld metal for 22Cr-5Ni ferritic-austenitic stainless steels 51
- I. M. Wolff, P. Park-Ross, and A. Ball
Localised corrosion of high chromium superferritic alloys 202
- C. Wrubl, A. Mollica, and U. Montini
Corrosion of aluminium alloy AlMg4 in NaCl solution containing disodium salt of ethylenediaminetetraacetic acid at various concentrations and pH values 268

Aluminium and aluminium alloys

Double cycle polarisation technique for metal matrix composites Coleman *et al.*

Passive films on Al in aqueous halide solutions Carroll and Breslin

SCC propagation in AA 7039 Pyun *et al.*

Corrosion of AlMg₄ in NaCl solution containing disodium salt of ethylenediaminetetracetic acid Wrubl *et al.*

Atmospheric corrosion

Brown staining of galvanised coatings in atmospheric corrosion Sjoukes

Room temperature SCC of stainless steels in indoor swimming pool atmospheres Oldfield and Todd

Atmospheric corrosion of carbon and weathering steels in Taiwan Feng-I-Wei

Batteries

Corrosion of porous iron electrodes in alkaline batteries Jayalakshmi and Muralidharan

Brasses *see* Copper and copper alloys

Cast irons

Corrosion of underground structures due to acidification Levlin

Cavitation of nodular cast iron in sea water Gouda *et al.*

Cathodic modification

Localised corrosion of high Cr superferritic alloys Wolff *et al.*

Cavitation

Cavitation of nodular cast iron in sea water Gouda *et al.*

Chromium

Hydrogen generation on Cr electrodes Noninski

Concrete *see* Reinforced concrete

Copper and copper alloys

Corrosion of sintered copper alloyed 316L steel Fedrizzi *et al.*

Depletion of concentration driving force and decay of corrosion down a pipe Poulson and Chexal

Influence of iron addition on corrosion layer on 70Cu-30Ni in sea water Beccaria and Crousier

Corrosion in syrupy liquid from orthophosphoric acid Smith and van Drosselaar

Dezincification of 70-30 brass in sulphuric acid Abbas

Dezincification of α brass. Part 1: Effect of surface treatment Saber and El Warraky

Corrosion fatigue

Effect of Ca(OH)₂+NaCl on corrosion fatigue in cold drawn eutectoid steel Singh and Sanchez-Galvez

Corrosion potential

Meaning and measurement of corrosion potential Krivián

Corrosion products

Influence of iron addition on corrosion layer on 70Cu-30Ni in sea water Beccaria and Crousier

Passive films on Al in aqueous halide solutions Carroll and Breslin

Dealloying

Influence of iron addition on corrosion layer on 70Cu-30Ni in sea water Beccaria and Crousier

Nickel migration from Cr-Ni stainless steel in potable water Schwenk

Dezincification of 70-30 brass in sulphuric acid Abbas

Dezincification of α brass. Part 1: Effect of surface treatment Saber and El Warraky

Dezincification *see* Dealloying

Environments

see also Atmospheric corrosion

Reinforced concrete

Acids

Development of nickel based corrosion and wear resistant alloy by reaction sintering-hipping process

Corrosion of sintered copper alloyed 316L steel Fedrizzi *et al.*

Pitting resistance of weld metal for 22Cr-5Ni duplex stainless steels Walker and Gooch

Corrosion of Mo alloyed low residual C steels in HCl Al-Hajji and Nawwar

Chemical and electrochemical behaviour of Ti in methanol-water-HCl Al-Abdallah

Corrosion of 9Cr-1Mo ferritic steels in high temperature water containing acid sulphate-chloride

Ashmore *et al.*

Localised corrosion of high Cr superferritic alloys Wolff *et al.*

Corrosion in syrupy liquid from orthophosphoric acid Smith and van Drosselaar

Depletion of concentration driving force and decay of corrosion down a pipe Poulson and Chexal

Dezincification of 70-30 brass in sulphuric acid Abbas

Alkalies

Hydrogen generation on Cr electrodes Noninski

Effect of Ca(OH)₂+NaCl on corrosion fatigue in cold drawn eutectoid steel Singh and Sanchez-Galvez

Corrosion of porous iron electrodes in alkaline batteries Jayalakshmi and Muralidharan

Coal slurries

Corrosion inhibition by tungstate in coal-water slurries Sastri *et al.*

Halides

Corrosion of steel in mortars immersed in chloride solution Newton and Sykes

Pitting resistance of weld metal for 22Cr-5Ni duplex stainless steels Walker and Gooch

Effect of Ca(OH)₂+NaCl on corrosion fatigue in cold drawn eutectoid steel Singh and Sanchez-Galvez

Room temperature SCC of stainless steels in indoor swimming pool atmospheres Oldfield and Todd

Double cycle polarisation technique for metal matrix composites Coleman *et al.*

Evaluation of paints on steel in chloride media Amirudin and Thierry

Passive films on Al in aqueous halide solutions Carroll and Breslin

SCC propagation in AA 7039 Pyun *et al.*

Corrosion of AlMg₄ in NaCl solution containing disodium salt of ethylenediaminetetracetic acid

Wrubl *et al.*

Mine water

Corrosion of galvanised steel in synthetic mine water Allen

Localised corrosion of high Cr superferritic alloys Wolff *et al.*

Organic

Chemical and electrochemical behaviour of Ti in methanol-water-HCl Al-Abdallah

Potable water

Nickel migration from Cr-Ni stainless steel in potable water Schwenk

Sea water

Corrosion of steel in mortars immersed in chloride solution Newton and Sykes

Cavitation of nodular cast iron in sea water Gouda *et al.*

Influence of iron addition on corrosion layer on 70Cu-30Ni in sea water Beccaria and Crousier

Soil			
Corrosion of underground structures due to acidification	Levin	63	
Treated water			
Corrosion of 9Cr-1Mo ferritic steels in high temperature water containing acid sulphate-chloride	Ashmore <i>et al.</i>	135	
Erosion corrosion			
Performance of Ti and Ti stabilised stainless steels	Boulton and Betts	287	
Failure analyses			
Performance of Ti and Ti stabilised stainless steels	Boulton and Betts	287	
Galvanised steel			
Corrosion of galvanised steel in synthetic mine water	Allen	93	
Brown staining of galvanised coatings in atmospheric corrosion	Sjoukes	103	
Heat exchangers			
Corrosion of 9Cr-1Mo ferritic steels in high temperature water containing acid sulphate-chloride	Ashmore <i>et al.</i>	135	
Hydrogen evolution			
Hydrogen generation on Cr electrodes	Noninski	60	
Corrosion of porous iron electrodes in alkaline batteries	Jayalakshmi and Muralidharan	123	
Inhibitors and inhibition			
Corrosion inhibition by tungstate in coal-water slurries	Sastri <i>et al.</i>	251	
Corrosion of AlMg4 in NaCl solution containing disodium salt of ethylenediaminetetracetic acid	Wrubl <i>et al.</i>	268	
Intergranular corrosion			
Influence of deformation on sensitisation of 304 stainless steel	Parvathavarthini <i>et al.</i>	67	
Corrosion of 9Cr-1Mo ferritic steels in high temperature water containing acid sulphate-chloride	Ashmore <i>et al.</i>	135	
Intergranular corrosion in welded high alloy austenitic stainless steel	McCaul	239	
Iron and iron alloys			
Corrosion of porous iron electrodes in alkaline batteries	Jayalakshmi and Muralidharan	123	
Localised corrosion of high Cr superferritic alloys	Wolff <i>et al.</i>	202	
Marine corrosion	see Environments: Sea water		
Metal matrix composites			
Double cycle polarisation technique for metal matrix composites	Coleman <i>et al.</i>	186	
Models			
Depletion of concentration driving force and decay of corrosion down a pipe	Poulson and Chexal	183	
Molybdenum			
Corrosion of Mo alloyed low residual C steels in HCl	Al-Hajji and Nawwar	127	
Nickel and nickel alloys			
Development of nickel based corrosion and wear resistant alloy by reaction sintering-hipping process		29	
Corrosion in syrupy liquid from orthophosphoric acid	Smith and van Drosselaar	265	
Paints			
Evaluation of paints on steel in chloride media	Amirudin and Thierry	195	
Passivity			
Passive films on Al in aqueous halide solutions	Carroll and Breslin	255	
Pipework			
Corrosion of underground structures due to acidification	Levin	63	
Influence of deformation on sensitisation of 304 stainless steel	Parvathavarthini <i>et al.</i>	67	
Corrosion of galvanised steel in synthetic mine water	Allen	93	
Corrosion of 9Cr-1Mo ferritic steels in high temperature water containing acid sulphate-chloride	Ashmore <i>et al.</i>	135	
Depletion of concentration driving force and decay of corrosion down a pipe	Poulson and Chexal	183	
Corrosion inhibition by tungstate in coal-water slurries	Sastri <i>et al.</i>	251	
Nickel migration from Cr-Ni steel in potable water	Schwenk	245	
Pitting			
Corrosion of steel in mortars immersed in chloride solution	Newton and Sykes	31	
Pitting resistance of weld metal for 22Cr-5Ni duplex stainless steels	Walker and Gooch	51	
Localised corrosion of high Cr superferritic alloys	Wolff <i>et al.</i>	202	
Performance of Ti and Ti stabilised stainless steels	Boulton and Betts	287	
Platinum group metals			
Localised corrosion of high Cr superferritic alloys	Wolff <i>et al.</i>	202	
Polarisation techniques			
Influence of deformation on sensitisation of 304 stainless steel	Parvathavarthini <i>et al.</i>	67	
Double cycle polarisation technique for metal matrix composites	Coleman <i>et al.</i>	186	
Power plant	see Heat exchangers, Pipework		
Pumps			
Intergranular corrosion in welded high alloy austenitic stainless steel	McCaul	239	
Performance of Ti and Ti stabilised stainless steels	Boulton and Betts	287	
Reinforced concrete			
Corrosion of steel in mortars immersed in chloride solution	Newton and Sykes	31	
Effect of Ca(OH) ₂ +NaCl on corrosion fatigue in cold drawn eutectoid steel	Singh and Sanchez-Galvez	117	
Sensitisation	see Intergranular cracking		
Sintered products			
Corrosion of sintered copper alloyed 316L steel	Fedrizzi <i>et al.</i>	46	
Corrosion of porous iron electrodes in alkaline batteries	Jayalakshmi and Muralidharan	123	
Steels
